SOFT SKILLS

- Time Management
- Leadership
- Adaptability
- Teamwork
- Problem Solving
- Attention to Detail

PROFILE

An independent and self-motivated individual seeking an entry-level career in the information technology field where I can put the substantial knowledge learned during my study to good use. Excellent at creating wireframes and web design, as well as computer abilities. Work with the team to contribute and brainstorm ideas.

WORK EXPERIENCE

IT Staff
Aug 2023 - Jan 2024
Medalpha Philippines Inc.

- Managed computer workstations.
- Handled website and computer issues.

Data Encoder
April 2019 - May 2019
PNHS - Main

- Created student report cards.
- Compiled all files in a certain location.

PROJECTS

Kariton
Capstone Project || Github: kariton

Developed an integrated platform using Flutter and Node.js to connect households, Barangays, and junkshops, optimizing scrap collection and recycling processes. Implemented real-time scheduling, location tracking, and a rewards system, enhancing community participation and reducing waste management inefficiencies.

Kape-Eling
Academic Project || Github: kape-eling-project

Built a user-friendly website using HTML, CSS, and JavaScript for Kape-Eling, an online coffee shop offering a diverse selection of beverages. The website includes an interactive menu. It ensures a smooth and engaging customer experience. This project optimizes the online ordering process and enhances the efficiency of managing customer orders.

Twitter Replication
Personal Project || Github: twitter-replication

Developed a simplified version of Twitter using Dart, featuring key functionalities like posting tweets, like posts, and viewing a feed. While not a replica, it captures the core social interaction features, providing a basic but functional social media experience.

AWARDS

VPAA and Dean Lister
